

Gamblin Artist and 1980 Oils

Gamblin Artist's Oil Colors made with the highest grade pigment, refined linseed (flax) oil and safflower oil, Gamblin Artist's Oil Colors have strong pigmentation and luscious working properties. Each color possesses unique characteristics in terms of texture, undertone, and tinting strength. This professional range of colors includes both historically accurate paints and modern hues. For everything from traditional realism to contemporary abstraction, you'll find your ideal colors within the Gamblin Artist's Oil Color line.

Gamblin 1980 Oils True color. Real value.
Gamblin 1980 Oil Colors are made with the same dedication and pure pigments that go into our Artist's Oils. In addition, we use the same process of mixing, milling, filling, and hand labeling. In order to reduce the cost of oil colors, some manufacturers use gels and waxes to stiffen colors and replace traditional pigments with less expensive ones.
Our approach is different. 1980 colors are formulated with pure pigments, the finest refined linseed oil and marble dust (calcium carbonate). More affordable colors have been made with these three ingredients since oil painting began.
With 1980 colors, artists experience colors that are true, without homogenized texture or muddy color mixtures. Our approach of using both traditional raw materials and processes ensures that artists experience the luscious working properties that they expect from their oil colors.

Williamsburg Artist Oils "22 New Colours"

Williamsburg® Artist Oil Colors are professional oil paints crafted to reveal the unique character of every pigment. Rather than creating a uniform feel across the palette, each color is individually formulated and milled to preserve its natural qualities, resulting in exceptional luminosity, distinctive handling, and remarkable depth of color. Produced in small batches using premium alkali-refined linseed oil and backed by GOLDEN's rigorous testing standards, Williamsburg helps artists create with confidence. 10WIL... *22 New Colours are now available* *40% Off Retail*

Michael Hand Harding Oil

Michael Harding Oil paints are made by hand, using techniques which date back to the days of the Old Masters. There is a very simple reason for this painstaking process. Michael Harding as an artist and painter wanted to create colours that were true and vibrant, and paint which was beautiful and durable. The greater the pigment content of a paint the greater the resistance it has to fading. Nearly all manufacturers use various fillers to extend the volume of the oil paint. It may increase profits but it compromises on quality. He totally refuse to do this. Why make something exceptional and then dilute it? Michael Harding will not claim that his paints will turn you into a great painter, but he can promise they will have a profound effect on your work. Your colours will be stronger and richer, and you will find the texture of the paint incomparable. You will love working with them. Try them. You will be amazed. 10MICMHD.... Save 35% Off Retail

10ROS...

Save 25% Off Retail

ROSA Fine Art Oil Paints made from both orga-nic and inorganic finely ground pigments. Combining carefully selected pigments with polimerized linseed oil we obtain pure bright colour with natural brilliance.

The peculiar feature of ROSA paint production is that we strictly adhere to the following manufacture stages. At early stage we determine key features of paints such as consistency, colour mixing, colour intensity and coating properties. Then several laboratory samples of paint are subject to the expert assessment and testing. Consequently, taking artists' remarks and recommendation into consideration, we refine the formulation of each colour- to start its mass production.

Winsor & Newton Designers Gouache

Winsor & Newton Designers Gouache is celebrated for its exceptional brilliance, opacity, and strong tinting power. This finely ground, water-based paint is ideal for illustrations created with pen, brush, or airbrush. All Designers Gouache colors seamlessly blend with Winsor & Newton Artists' and Cotman watercolors. For fine art painting, it is best to use watercolor papers. However, for design and illustration projects intended for electronic scanning and reproduction, illustration board or Hot Press watercolor paper is recommended to achieve a flat finish that reproduces beautifully. 11WIN0605... Spectrafix Natural Glass

Natural Glass works beautifully as a varnish or medium for all painting and drawing media (not oil pastel), and on virtually all supports, including canvas, paper, Yupo, ceramic, stone, glass, leather, fabric (not washable), wood, gourds, jewelry and other materials. 17SPE236... **Save 25% Off Retail**

Spectrafix Final Fix

No more framing under glass! FinalFix is a casein-based spray fixative which contains beeswax and a few other natural ingredients to help the casein harden to a tough, moisture resistant finish. It is very similar to the Degas fixative, but provides a slightly deeper, semi-matte finish, and allows for damp cleaning and durable scuff-resistance.

Liquitex Markers are built for the rule breakers, the experimenters, the daydreamers. For the ones sketching in margins, mapping ideas on napkins, and pushing color past the edges just to see what happens.
With 58 colors in a precise 2mm size, plus 16 colors in bold 8mm and 15mm formats, and 10 curated sets, the range delivers acrylic performance for everything from fine detail to large-scale expression. Unapologetically bold, these markers layer, blend, and cover with ease across all surfaces and styles.
We believe in creativity that doesn't ask permission. Masterpiece or work in progress. Vision or beautiful mess. You are creating. And that deserves tools that keep up.

Canson Mi-Teintes Velvet

The benefits of Mi-Teintes® Velvet paper
Mi-Teintes® Velvet paper offers many benefits for pastel artists . An ideal paper for pastels, it ensures a smooth application and allows unlimited over-laying of colours, giving life to vivid, exquisite works. The paper quality elim-inates the need for a fixative, making it easier for artists to work and preserving the purity and luminosity of the colours applied.
Exceptional pigment adhesion for bril-liant, long-lasting results, allowing works to retain their intensity over time. The use of wet techniques opens up new creative possibilities, inviting artists to explore without constraints. A choice of 14 colours, offering a variety of back-grounds to suit every artist's vision.....

Holbein Acrylic Ink

Holbein Acrylic Ink (HAI) maintains the same pigment strength and intensity as found in Holbein Heavy Body Acrylic and Holbein Fluid Acrylic, but with much lower viscosity.
HAI does not shift in color tone from wet to dried color and will not clog a .01mm aperture. HAI will therefore flow seamlessly through any airbrush, technical pen or refillable marker. HAI can be used directly for bold, brilliant color with a brush, airbrush, dip pen, technical pen or refillable marker. HAI can also be used to achieve the subtle characteristics, washes and tones of watercolor painting.
