## Amsterdam Stand. Acrylic

Acrylic colours are a quick-drying paint based on 100% acrylic resin (a synthetic dispersion). When applying acrylic colours thinly and/or thinned with water, a watercolour effect can be obtained. Usually, however, acrylic colours are applied thickly and the result appears like that of oil colours. Many artists prefer acrylic colours because acrylic colours dry much more quickly than oil colours and are practically odourless. **77 colours** available in 120ml. And 500 ml. containers. ## Progresso Woodless Coloured Pencils Sets

Koh-I-Noor uses rich, top quality pigments for their Progresso woodless pencils. These They also maintain excellent light permanency, creating vibrant, durable pieces of art. Another key component of the are the special oils used in the pencil lead. These oils, along with other binders, allow the pencil to create dense, even strokes without the use of heavy pressure. These 7.6mm lead diameter are not encased in wood like other pencils; this reduces the loss from sharpening and maximizes the use of the entire lead. The end result is water-resistant, non-toxic and suitable for all artists.

## Mi-Teintes Pastel

Canson® Mi-Teintes® is a pulp-dyed colour paper that has won worldwide recognition for its qualities. It is gelatine stock-sized

which limits the absorption of pigments in order to show colours at their best. It has a high cotton content (more than 50%) combining mechanical resistance and a sensuous feel. Canson® Mi-Teintes® complies with the ISO 9706 standard on permanence, a guarantee of excellent conservation. Furthermore it has the advantage of having a different texture on either side: a honeycombed side characteristic of Mi-Teintes®; and fine grain on the other. It boasts the richest range of colours on the market, with 50 light-resistant tones. [57CAN70723...](#)
